Horse Health: Tying-Up and Azoturia, a Metabolic Disorder: Tying-Up and Azoturia Are Equine Exertional Rhabdomyolysis, the Most Common Muscle Problem in Horses and Surfaces as Either Being Sporadic or Chronic.

By Amanda L Biles

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This guide book is for horse folks interested in or studying diseases and disorders of horse health. In it you will find exercises to familiarize yourself with the terminology used to include a word search and glossary. There are bulleted lists for ease of reading, a study guide and a quiz for self evaluation of the understanding of this metabolic disorder. Tying-up and Azoturia are referred to as Exertional Rhabdomyolysis. It is the most common muscle problem in horses and surfaces as being either being sporadic or chronic. The genetically inherited chronic forms are Polysaccharide Storage Myopathy or Recurrent Exertional Rhabdomyolysis. If a horse displays symptoms immediately stop from working and call the veterinarian. Signs include reluctance to move, profuse sweating, and hard muscles in the hindquarters. There are many possible causes. An excessive amount of glycogen stored in the skeletal muscles from high grain diets being continually fed on days off or a genetic predisposition to store extra glycogen may disrupt the metabolic energy development once work is reestablished. A genetic abnormality causing muscle contractions could also...

Reviews

Great e-book and valuable one. This can be for all who statte that there was not a worthy of studying. I found out this book from my i and dad recommended this publication to understand.
